Mission

Being a collaborative platform that promotes and guides actions of social investment in education and health, seeking the welfare of the people and the transformation of Guanacaste communities

Vision

Partnerships between businesses, individuals, institutions and other communities will foster the transformation of the communities neighboring the Gulf of Papagayo in a manner that will allow them to reach the socio-economic levels enjoyed by other regions of the country.

Guanacaste a challenge for social development

- Unemployment rate is **9,7%** (compared to 7.5% nationwide)
- Guanacaste has **365.778** households
- **27%** of households in Guanacaste are in extreme poverty
- **35%** of households are headed by women
- Average schooling for people aged 15 and over, is **8.34 years**
- 88% of the population under 5 years of age do not assist day care or preschool (27,999 Children).

Volunteering Invitation Andaz Guest's

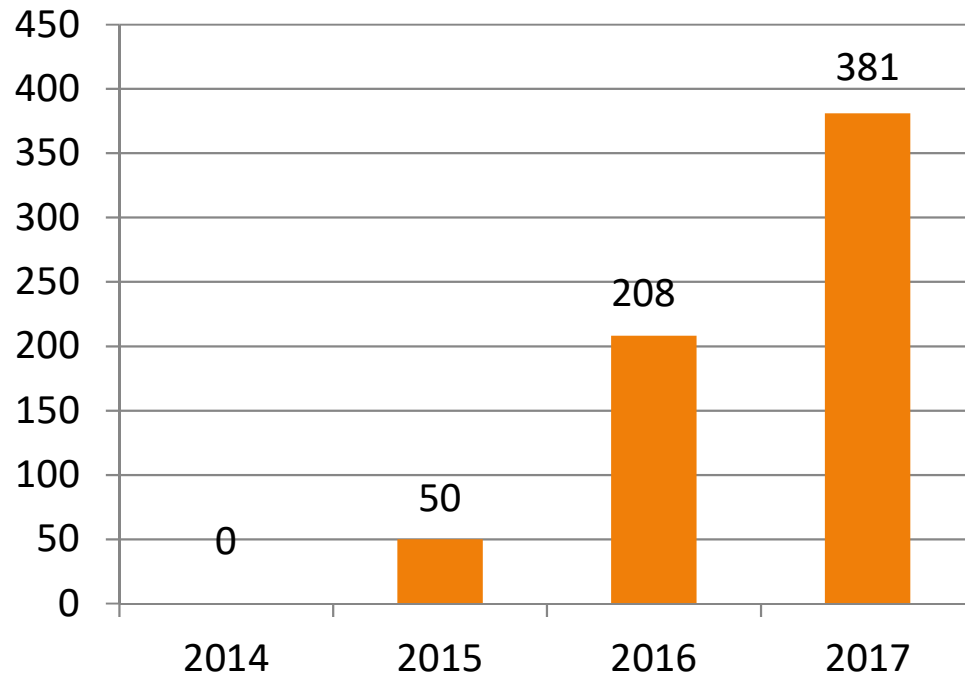

"We are responsible to the communities in which we live and work and to the world community as well. We must be good citizens, support good causes and charity. "

"Volunteering abroad can be one of the most educational, inspiring and exciting activities. Working and helping in another culture: the donation of time and energy to a good cause has great rewards and can enrich your life long after reaching home. "

- "People of all ages, backgrounds, abilities and income have chosen to spend part of their vacation and / or business trips to volunteer in different projects."
- "The possibilities are endless! We just have to know the volunteer time, preferences, the number of people who will participate and budget, in order to tailor programs."
- "Volunteering is a form of expression that communicates the personal and social values that give our lives a deeper meaning. And it is a necessity in a world that has so many human needs."

Andaz financing project: handling of emotions

Handling of emotions workshops took place at Altos del Roble and El Triunfo schools, 44 students, their parents and teachers participated in this important program, which objectives are: recognize their own emotions and those of others, express the emotions they feel in different situations, learn different ways to manage emotions, know how to change negative into positive emotions.

\$5 to Creciendo Juntos for school transportation)

With the \$5 campaign that the hotel promotes with guests, we received in 2017, \$1,470, used for transportations, meals and school supplies needed for handling of emotions project and also for the support that Costa Rica University students are given to El Triunfo school kids, due to the lack of reading skills that were found with the project handling of emotions.
