# OENOSTHESIA

*music & wine synergy*

Discover how your body can vibrate through sound and taste in this four-course dinner designed around multi-sensory harmony.

OENOSTHESIA is born from a European study and refers to the synergy between wine and music. What you listen to when you're drinking wine can change the way you perceive its aromas, flavours and textures. It's not synesthesia, it's what Dr Jo Burzynska calls, Oenosthesia, and it's something everyone can tune into.

**Join us on this unique sensorial experience!**
